Subject: ENUM delegation of E.164 country code +66 of Thailand became non-functional

Dear Sir,

This is to inform you that the focal point for Thailand has been contacted and that no action should be taken to remove the information until an answer has been received from them.

Following the discussion on a contribution from RIPE NCC on intending to initiate a process to review and update the non-functional ENUM delegations, the interim procedures for Geographic Country Codes were agreed by ITU-T and the Internet Architecture Board (IAB), and amended and agreed by ITU-T SG2 on 28 February 2019. The interim procedures can be found at the web site <https://www.itu.int/en/ITU-T/inr/enum/Pages/procedures.aspx>. Please be aware that according to item 3.5 of the the Interim procedures for Geographic Country Codes, *"No change will take place until the concerned Member State has notified the TSB that it approves the change."*

Yours faithfully,

A handwritten signature in blue ink, appearing to read 'Chaesub Lee'.
